

Go Green It's Easy & It's Time!

Who says you can't save money & help the environment. New digital mailers and addressing equipment supply costs have increased dramatically and tremendous amounts of cartridges are disposed of daily. It will take over 450 years for a single cartridge to decompose in our landfills.

How Can You Make a Difference & Save Money?

When you partner with **Mailing Systems Inc.** together we can significantly **reduce this waste** and you will **save money** by purchasing products such as:

- Our **Concentrated Seal Tite** sealing solution formula & reusable container which will reduce shipments, excess packaging and recycling needs. Offering the lowest cost/ liter gallon.
- New **DMI** Digital compatible mailing cartridges which have greater yields, providing more imprints using less cartridges & **save you up to 40%**.
- Participate in our "**Recycling Program**" to reduce waste and **receive a credit** on your account!
